Dear Andrew,

I fully support your right to include any and all of the contents of this paper in your dissertation.

Regards, Paul

Hi all,

I'm planning on including material from our HFNG Cu/Ti NIM manuscript as part of my dissertation. To do so, I need to get statements granting me permission to use and reproduce the material as part of my dissertation from all co-authors. Emails from co-authors giving permission will be accepted.

If you're okay with that, can you please respond back with a short statement agreeing to this release?
Thanks!!!

All the best,
